

UNDERSTANDING THE THREE LEVELS OF CERTIFICATION IN THE FCEA

APPRENTICE LEVEL

A student who has achieved an Apprentice Level Certificate in the Forrest Center for Evolutionary Astrology has mastered the foundational astrological technique of natal chart analysis, which includes the skills needed to uncover the clues to grasping a person's unresolved, prior-life karma. The insights revealed in the more conventional psychological analysis of the natal chart are understood in the metaphysical light of the prior-life dynamics.

CRAFTSPERSON LEVEL

Students who have achieved a Craftsperson Level Certificate in the Forrest Center for Evolutionary Astrology have already earned an Apprentice Level Certificate and thus have mastered natal chart analysis, but they have gone further. In addition to the foundational material, they have proven their understanding of astrological timing – transits, progressions, and solar arcs. They have also learned techniques for using evolutionary astrology to support any kind of human partnership, helping us understand how two charts might interact.

MASTER'S LEVEL

Students who have achieved a Master's Level Certificate in the Forrest Center for Evolutionary Astrology hold both Apprentice and Craftsperson certificates. To that base of knowledge, they have added certain specialities depending on their own interests. Some are skilled at rectification, which is to say determining an unknown birth time. Some can do geographical astrology, helping clients understand the impact of different locations on them. Some can choose propitious times for weddings or opening businesses. All have polished their interpretive skills by working directly with Steven Forrest. All are highly trained and highly individuated in their work.
